

These comments favor FM translators and oppose LPFM stations. In our local community, we are served well and greatly encouraged as a family by the FM translator bringing K-LOVE radio to us. We not only hear encouraging music but also good, moral teaching and conversation as well as a positive perspective on local and national news items. K-LOVE serves the public interest by providing a positive alternative to the more secular radio formats. Their programming promotes traditional values in an uplifting, encouraging and positive way. Thank you!
